

- ✓ Reusable for 365 washes / 1 year
- ✓ Best in odor removal! (Fragrance Free)
- ✓ Keep washing machine hygienic
- ✓ Zero toxic and synthetic chemicals
- ✓ Zero trace of chemicals for environment
- ✓ Fabric friendly and antibacterial

## Saving the Planet One Wash at a Time!

No detergent  
needed!

## The Laundry Revolution from Japan

### Ingredients :

Inside bag : Magnesium (Purity 99.95%)

Bag : Polyester and Nylon ( Natural white color )

### Produced by :

MK Enterprise Inc  
2-1-16 Hiratsuka, 4th Floor, Shimagawa-ku, Tokyo, Japan  
[www.terrawashmg.com](http://www.terrawashmg.com)

'Terra' meaning 'Earth' in Latin, Terra Wash+Mg is the new laundry revolution from Japan!

### How It Works

Terra Wash+Mg is filled with magnesium which is highly purified, 99.95% purity, and specially processed with Japanese innovative technology. When this special magnesium comes in contact with water, it generates bubbles of hydrogen and form ionized alkaline water with increased pH level approximately 10.5, which makes easier for water to remove dirt from fabrics. This special water has high ability to remove/eliminate dirt, sebum, mold, germs, bacteria, and odor resulting in fresh, safe, and clean laundry!

### Our test results show Terra Wash+Mg is:

- 10 times stronger in removing odor than detergent
- Effective as detergent in decomposing sebum dirt
- Effective on suppressing bacteria

### How to Use (No detergent needed!)

#### 1. Place Terra Wash+Mg into washing machine together with dirty laundry. No detergent needed!

- Reusable and capable of 365 washes / 1 year
- Works for both soft and hard water / cold and hot water
- Works for laundry load up to 8kg (17 lbs)
- Requires no rinse cycle because it creates no bubbles
- Works for any types of washing machine (Top-loading, front-loading, HE and others)

**Note:** Because Terra Wash+Mg does not contain any chemical bleaching or brightening agents unlike regular detergent, for tough stains, it is recommended to do some partial wash or apply stain remover on the areas before wash, especially for white cloths.

**Note :** If preferred, you may use laundry detergent together with Terra Wash+Mg. When using together, Terra Wash+Mg may amplify the power of detergent, so you can reduce the usage amount of detergent in 1/2 or less.

#### 2. (Optional) If preferred, manually reset machine washing cycle. (Skip this step if using detergent together)

- (a) Set to include soaking cycle for 15-20 minutes to allow for the hydrogenated alkalized water to work with the dirty laundry for cleaning effectiveness.
- (b) Set to skip rinse cycle to save both water and electricity usage.

#### 3. Remove Terra Wash+Mg from washing machine before drying cycle if using washer/dryer combo.

**Note :** Leaving Terra Wash+Mg inside machine during drying cycle would not affect its function. However, we recommend to remove Terra Wash+Mg before drying cycle so to avoid unnecessary damage to a nylon bag.

#### 4. After finishing the washing cycle, hang up Terra Wash+Mg to air dry.

**Note :** For consecutive loads, you may use Terra Wash+Mg without drying.

After 365 washes or 1 year, 10-30g (0.02-0.06 lbs) of magnesium will be used up depending on the frequency of usage and this will lower Terra Wash+Mg's cleaning power. Here are your options after 365 washes or 1 year.

- ① Replace with a new one
- ② Use both new and old one together so to amplify the cleaning power
- ③ Alternatively, plant the magnesium pellets packed in the old laundry sachet in plant pots or in the garden to enrich the soil.

**Caution: DO NOT USE** together with Chlorine-based detergent or bleach. **Caution: Keep out of reach of children.**

The Detergent Alternative

Terra Wash+Mg

Eco Laundry Sachet

4 major elements consisting 91.2% of earth are iron (32.1%), oxygen (30.1%), silicon (15.1%), and magnesium (13.9%). This major and abundant element, magnesium, known as a king of mineral, is vital to maintain and enhance our daily health and its ions are essential to cells of all known living organisms. Over 300 enzymes require the presence of magnesium ions for their catalytic action. It is also known to help stabilize nerve excitation, maintain blood pressure, and function heart and muscle property in human health. Recent studies have been finding more about great influences of the miracle element, magnesium, to human health.

### Change the world with magnesium! Power of Magnesium

### Product Features : No detergent needed!

- Reusable for 365 washes / 1 year (Save time and money!)
- Best in Odor Removal [Fragrance Free] (About 10 times stronger than regular detergent)
- Human friendly (100% free of toxic and synthetic chemicals = Perfect for sensitive skin and children) (Protects people's health by keeping the washing machine hygienic)
- Earth friendly (Leaves zero trace of chemicals and save tons of water and power)
- Fabric friendly (Keep fibers and colors/ Great for organic cotton) and Antibacterial
- Best Quality (Made in Japan using patent-protected innovative technology with certified test results)
